

Powering Progress - Ensuring Reliability

COMPANY PROFILE

ABOUT US _____

Sebete Empire is a premier, multi-disciplinary service provider in mining and construction, committed to empowering the industries that build, maintain, and advance our nation. Serving both public and private sectors, we deliver an integrated suite of high-quality solutions ranging from major construction and road works to comprehensive fleet and asset management for the mining sector.

Guided by a strong foundation of safety, integrity, and exceptional workmanship, we ensure that every project is executed with precision and reliability. At Sebete Empire, we do more than deliver services, we partner in progress, ensuring seamless operations, optimized performance, and uncompromised project outcomes for our clients.

Your Partner in Reliable Infrastructure Solutions

We aim to provide reliable, efficient, and high-quality multi-disciplinary services that support the nation's core industries. We are committed to fostering long-term partnerships through safety-focused practices, integrity-driven operations, and exceptional workmanship that ensures every project and asset performs at its best.

Our Mission

To deliver reliable, high-quality, and safety-driven services that support national growth while ensuring every project and asset performs at its best.

Our Vision

To be the most trusted partner in construction, infrastructure, and asset management, building sustainable progress for the future.

Our Values

Safety

We prioritise safe practices in all operations.

Excellence

We deliver quality workmanship and efficient solutions.

Partnership

We collaborate closely with clients and stakeholders.

Reliability

We provide consistent, dependable service.

Responsibility

We take ownership of our work and long-term impact.

Innovation

We embrace modern methods and continuous improvement.

OUR CORE SERVICES

The Mining Sector and Operations

Sebete Empire provides integrated, on-site mining solutions that support both open-pit and underground operations. Our services span plant hire, haul road construction and maintenance, fixed plant and conveyor system support, mobile fleet maintenance, and structural fabrication. With a strong focus on safety, reliability, and operational efficiency, we partner with mining clients to reduce downtime, optimise asset performance, and ensure seamless day-to-day operations.

Plant Hire and Maintenance

We offer a complete equipment solution. Our division includes the hire of a modern, diverse fleet of heavy and light machinery, from excavators and bulldozers to graders and loaders. Crucially, we back this with our comprehensive Plant Maintenance services, providing scheduled servicing, preventative maintenance, and on-demand repairs to ensure all equipment—yours or ours—operates at peak performance, minimizing downtime and maximizing ROI.

Washing and Cleaning Services

We provide a wide range of industrial and commercial cleaning solutions. Our services include post-construction clean-ups, facility deep-cleaning, waste management, and high-level cleaning, ensuring a safe, clean, and compliant working environment for your business.

Conveyer Belts Maintenance

Our specialized team ensures the smooth and continuous operation of your conveyor systems. We provide 24/7 breakdown support, scheduled preventative maintenance, pulley lagging, belt splicing, and alignment services to prevent costly downtime in your production line.

Auto Electrician Service and Aircon Maintenance or Man on Site

Our certified auto electricians diagnose and repair complex electrical faults in all types of vehicles and mobile plant equipment. We specialize in diagnostics, wiring, lighting systems, alternators, starters, and the installation of advanced telematics and monitoring systems.

Asset Management

We help you maximize the value and lifespan of your physical assets. Our strategic approach covers the entire asset lifecycle—from acquisition and deployment to maintenance, replacement, and disposal—ensuring cost-efficiency, regulatory compliance, and optimal performance.

Expert Service for Every Stage of Your Project

Diesel Mechanics Field Service or Man on Site

Our team of expert diesel mechanics provides comprehensive maintenance and repair services for diesel engines powering trucks, heavy machinery, and generators. We offer everything from routine servicing and preventative maintenance to major overhauls and on-site breakdown support.

Boiler Maker Field Service or Man On site

We offer high-quality metal fabrication, welding, and repair services. Our skilled boilermakers handle structural steelwork, tank and vessel fabrication, pipework, and wear plate installation, ensuring the structural integrity and longevity of your critical assets.

Road Construction, Haul Maintenance, and Signages

Road construction, maintenance, and signage are interconnected aspects of road safety. Construction and maintenance ensure roads remain functional and safe, while signage provides clear communication to drivers, reducing accidents and improving traffic flow.
